What kernel did you chose?

Try -2.6.18-12-fza-686.

If it doesn't boot

try to change menu.lst

try this one and boot into -2.6.18-12-fza-686 kernel

```
/boot/vmlinuz-2.6.18-12-fza-686 root=UUID=19eab690-e5bf-4663-81b2-b74d7fcab58f ro quiet splash
```

then if it doesn't work try this one,

```
/boot/vmlinuz-2.6.18-12-fza-686 root=UUID=19eab690-e5bf-4663-81b2-b74d7fcab58f ro quiet splash noapic
```
