Hi, i'm getting following error when compiling Kernel RHEL5 028stab057.2

```
-----  
CHK   include/linux/version.h  
CHK   include/linux/utsrelease.h  
CHK   include/linux/compile.h

CC    net/socket.o  
CC    net/core/dev.o  
LD    net/core/built-in.o

make[2]: *** [net/ipv4/route.o] Error 1  
make[1]: *** [net/ipv4] Error 2

```

I downloaded the config from <http://download.openvz.org/kernel/branches/rhel5-2.6.18/028stab057.2/configs/kernel-2.6.18-i686.config.ovz>
and made some modifications with 'make menuconfig'

Any ideas?
