Hi, i'm getting following error when compiling Kernel RHEL5 028stab057.2

```

I downloaded the config from <http://download.openvz.org/kernel/branches/rhel5-2.6.18/028stab057.2/configs/kernel-2.6.18-i686.config.ovz> and made some modifications with 'make menuconfig'

Any ideas?
