Subject: Re: Network Speeds slow only with openvz kernel
Posted by maratrus on Fri, 22 Aug 2008 15:34:32 GMT

Hello,

- could you please specify the kernel you use?
- could you please specify your network configuration? ("ip a l" (from HN and CT)) What OS do you have? Do you know the way to reproduce the issue?
- do you use traffic limiting? (iptables/tc)
