hello, i'm trying to install ovzkernel-2.6.18-92.1.1.el5.028stab057.2 and when i install it with

yum install ovzkernel

i get

--> Running transaction check

---> Package ovzkernel.i686 0:2.6.18-92.1.1.el5.028stab057.2 set to be installed

--> Processing Conflict: ovzkernel conflicts dev < 3.2-7

--> Finished Dependency Resolution

Error: ovzkernel conflicts with dev < 3.2-7

same error when i try to install vzctl to anyone can help me plz in this.....

anyone can contact me on hotmail: bahaider_cool@hotmail.com

or gmail: haider.ghaleb@gmail.com

Best Regards,
Haider Ghaleb
