Dear Friends,

When I execute the command `vzctl chkpnt 108 --suspend`, it return follow message:

```
Setting up checkpoint...
```

```
    suspend...
```

```
Can not suspend VE: Device or resource busy
```

```
file struct is referenced outside 1 2
```

```
Checkpointing failed
```

I use CENTOS 4 and kernel 2.6.9-023stab048.4

Thanks

Adriano
