LinuxGeek wrote on Sat, 27 September 2008 00:39Hello,
Check this to cluster many containers
http://wiki.openvz.org/HA_cluster_with_DRBD_and_Heartbeat

you can use LVS for Apache
www.linuxvirtualserver.org

and this for mysql cluster
http://www.mysql.com/products/database/cluster/

regards
Alaa eldin

DAAAAMN.. that's too much to read xD
Anyway, thanks, it'll be really helpful =D
