I found an italian traslation of quick install and other pages of openvz wiki:

Is it possible to add them:

<http://www.valent-blog.eu/2008/10/01/openvz-installazione-ra-pida/> -> quick installation

<http://www.valent-blog.eu/2008/10/01/openvz-preparazione-del-la-cache-di-un-os-template/> -> os
template cache preparation

<http://www.valent-blog.eu/2008/10/08/gestione-di-base-di-openvz/> -> Container creation

Bye
