It seems that "jmctavish" in this topic ( <http://forum.openvz.org/index.php?t=msg&th=6868&start=0> ) have the same problem with IO performance.

Maratrus told him to upgrade his kernel, but we don't know if it worked.  
In my case, I have the stable kernel release available in :  
deb <http://download.openvz.org/debian-systs> etch openvz  
(2.6.18-12-fza-amd64)
