Hi , ( : command not foundne errors ) solved !

```
[root@serverd608 ~]# cat /etc/vz/vz.conf | tr -d '\r' > vz.conf.new && mv vz.conf.new
/etc/vz/vz.conf
mv: overwrite `/etc/vz/vz.conf'? y
```

```
[root@serverd608 ~]# /etc/init.d/vz restart
Shutting down VE 110
Bringing down interface venet0:                [ OK ]
Stopping OpenVZ:                                [ OK ]
/etc/init.d/vz: line 200: echo: write error: Broken pipe
/etc/init.d/vz: line 200: echo: write error: Broken pipe
/etc/init.d/vz: line 200: echo: write error: Broken pipe
/etc/init.d/vz: line 200: echo: write error: Broken pipe
/etc/init.d/vz: line 200: echo: write error: Broken pipe
Starting OpenVZ:                                 [ OK ]
Bringing up interface venet0:                    [ OK ]
Configuring interface venet0:                    [ OK ]
Starting VE 110:                                  [ OK ]
[root@serverd608 ~]#
```

### /etc/vz/vz.conf Attached ###

Thanks

kir wrote on Sat, 08 November 2008 21:42Thanks. It looks like you were editing /etc/vz/vz.conf with some Windoze text editor. Don't do that since it inserts extra characters ("\r").

For now, try this to fix the file:

```
cat /etc/vz/vz.conf | tr -d '\r' > vz.conf.new && mv vz.conf.new /etc/vz/vz.conf
```

Then rerun /etc/init.d/vz restart and see if the above fix helped. If not, attach your /etc/vz/vz.conf here.
