Hello,

are you sure that it is OpenVZ specific problem.
I found several pages with the same problem:

<https://bugs.launchpad.net/ubuntu/+source/vmware-server/+bug/294978>
<http://communities.vmware.com/message/1059744;jsessionid=787890E2A3822EE331A40847183695EB>
<http://communities.vmware.com/thread/171967>

Do you have a chance to check the native 2.6.18-92.1.13.el5 kernel which OpenVZ kernel is based on?
