Subject: Re: mingetty causing high load - fedora 10
Posted by mperkel on Mon, 01 Dec 2008 18:53:24 GMT

I figured it out. Fedora 10 has a different init sequence. Apparently the inittab file is replaced by the /etc/event.d directory. I deleted all the /etc/event.d/tty* files in the VEs and I think it's fixed.
