Subject: Re: How to change VPS network card to eth0??
Posted by nick_chang on Wed, 10 Dec 2008 07:57:00 GMT

Dear Kir

Thanks for your support.

I saw this document http://wiki.openvz.org/Virtual_Ethernet_device

I can create new network. It name is eth0

But when I reboot this VPS. All setting don't save.

Do you have any suggest??

Thanks

BR
Nick
