Try the following checks

```
projsrv3 ~ # zgrep CONFIG_IA32_EMULATION /proc/config.gz
CONFIG_IA32_EMULATION=y
projsrv3 ~ # ls -la /vz/private/103/lib/ld-linux.so.2
lrwxrwxrwx 1 root root 22 2008-03-15 18:24 /vz/private/103/lib/ld-linux.so.2 -> ../lib32/ld-linux.so.2
projsrv3 ~ # file -L /vz/private/103//lib/ld-linux.so.2
/vz/private/103//lib/ld-linux.so.2: ELF 32-bit LSB shared object, Intel 80386, version 1 (SYSV),
dynamically linked, stripped
```
