Subject: Live Migration - Permission denied error
Posted by gnome on Thu, 11 Dec 2008 23:34:09 GMT

Hi everyone,

I have been trying to do virtual machine migration from node A to node B using command

vzmigrate --online -v username@<IP Address> veid

but am getting error permission denied...
Am i doing something wrong..
I even tried this..

vzmigrate --online -v <IP Address> veid

but the same error comes.

Can you please suggest any solution?

Thanks for your help
Neeraj
