Subject: Multi Interfaces In Server
Posted by johnnguyen on Fri, 19 Dec 2008 09:44:41 GMT

Dear all,

I have problem with Multi NIC

My server have 2 NICs

Nic 1: IP: 172.16.1.10
Nic 2: IP: 10.100.100.10

In server I have make VPS with 2 IP: 172.16.1.11 and 10.100.100.11

But unfortunaly, 2 IPs in VPS cannot access to outside and from Outside I cannot access to VPS?

Can you give me why and howto resolve it?

Regards,
John Nguyen
