Hi,

I'm trying to recompile kernel-2.6.8 with OVZ patch.

I'm getting this error when I do: make modules

```
make[3]: *** [drivers/scsi/qla2xxx/qla_gs.o] Error 1
```

```
make[2]: *** [drivers/scsi/qla2xxx] Error 2
```

```
make[1]: *** [drivers/scsi] Error 2
```

```
make: *** [drivers] Error 2
```

Thanks,
