Subject: Re: Configure virtualized /proc Posted by kjo.hansi.glaz on Sat, 03 Jan 2009 18:16:53 GMT View Forum Message <> Reply to Message

I tried this.

- With ati driver, X starts a little more, but "freezes" my display.
- With vesa driver, this works!

As you said, I'm not sure at all it's a good solution, but at least it works.

Thanks!
