Here you are.

Please, note, these patches are for 2.6.18-028stab057.2 kernel!

diff-quota-compat-20080806
diff-xen-flush_tlb_page-2008080
diff-include-cacheflush-20080806

But AFAIK these patches are already in 2.6.18-028stab056.1 and thus you've faced another issue. Please, file a bug for your issue and attach your config file.

EDITED here: surely if those patches are not in 2.6.18-028stab057.2, they are also not included into 2.6.18-028stab056.1, don't know why i decided that.

Thank you.
