Hello,

Quote:

2009-01-27 04:30:48 C [posix.c:3604:init] brick: Extended attribute not supported, exiting

Seems that indeed extended attributes are not supported inside VE but I think they are also not supported on the HN i.e. partition that is mounted to /vz. Could you possibly check this assumption?

Quote:

tune2fs -l /dev/*

Filesystem features should contain ext_attr record.
