please post the ubc (user_beancounters) for "crashing" containers ...

on hardware node:

```
# cat /proc/bc/<CTID>/resources
```

or for all containers

```
# cat /proc/user_beancounters
```

in a container:

```
# cat /proc/user_beancounters
```

See more at http://wiki.openvz.org/Resource_shortage

bye,

Thorsten
