show OpenVZ resource "privvmpages" are to low
-> increase the "privvmpages" of this container ...

```
$ vzctl set <CTID> --privvmpages <limit:barrier> [--save]
```

like (1.5 * maxheld):

```
$ vzctl set <CTID> --privvmpages --privvmages 197002:197002
```

Btw, can you describe what kind of program are running inside this container ?

Bye,
Thorsten
