Hello,

the first oops is similar to one described in bug #1028

[http://bugzilla.openvz.org/show\\_bug.cgi?id=1028](http://bugzilla.openvz.org/show_bug.cgi?id=1028)

Do you have a chance to try the patch mentioned there?

If it does not help or doesn't eliminate all Oopses please file a bug into bugzilla.

Thank you very much for the assistance.
