
Subject: Porting OpenVZ to Ubuntu Intrepid 2

Greetings all;

I've been looking into applying the 2.6.27 OpenVZ patch to the Ubuntu Intrepid 2.6.27 tree and have discovered that there are significant disagreements between the OpenVZ and Ubuntu patches.

Has anyone else attempted to import OpenVZ to the Intrepid kernel, or, if not, is there any documentation on how it was ported to hardy?
