Quote:Are ip_contrack and xt_contrack kernel modules loaded?

Mmm, I think so:

```
[root@k13 ~]# lsmod |grep conn  
ip_contrack      101012 11 vzrst,ip_nat,vzcpt,xt_state  
nfnetlink        40392 2 ip_nat,ip_contrack
```

Is ok?

Thanks!
