Heres what I do, there may be a more elegant solution, but its free:

```
rm -rf /aquota.user 2>/dev/null
rm -rf /aquota.group 2>/dev/null
unlink /aquota.user 2>/dev/null
unlink /aquota.group 2>/dev/null
for x in `find /proc/vz/vzaquota/ | tail -1 | xargs find | tail -2`; do ln -s $x /; done
```
