Hello,

Quote:
I can't find following package on repo;

It's a bash built-in function.

Quote:
Re: pushd /vz/private/$OLDVE; ......

the directories don't exist. Whether creating them?

The first line of the wiki page:
Quote:

OLDVE=222 NEWVE=333

In your case OLDVE shoud be 101, NEWVE - 102.
