hi

i have the problem with cpanel  
i have in my server virtouzzo 3.0 and centOs 4.3  
and the quota not workign fine

i try the all post sugerenci  
this is result

Installing Default Quota Databases.....Done  
Quotas are now on  
Updating Quota Files.....

....Done  
Resetting quota for demo to 200 M  
Resetting quota for nethostc to 200 M

this shows to me but when I am going to even see in whm it continues showing quota unlimited  
any help
