hi

i have the problem with cpanel
i have in my server virtouzzo 3.0 and centOs 4.3
and the quota not workign fine

i try the all post sugerenci
this is result

Installing Default Quota Databases.....Done
Quotas are now on
Updating Quota Files.....

....Done
Resetting quota for demo to 200 M
Resetting quota for nethostc to 200 M

this shows to me but when I am going to even see in whm it continues showing quota unlimited
any help
