[quote]On the VEs .conf file I add a line

IP_ADDRESS="192.168.3.253"[quote]

First, all the IP addresses of VE should be listed in the same IP_ADDRESS statement, i.e. multiple IP_ADDRESS assignments in config file won't work as expected.

Quote:if there should be some kind of GATEWAY line?

If all the boxes are on the same LAN (i.e. same network segment) no router/gateway is needed.
