JimL wrote on Wed, 08 April 2009 09:19I installed the Intrepid x86 template and it went well. I need to have the latest avr compiler and so I upgraded to jaunty. It went fine, however when the ve boots, it hangs.

...

It never brings up the network.

We've found a workaround to this problem, and have posted our solution:
<http://www.fs3.ph/article/ubuntu-904-in-an-openvz-ve>. We hope this works for you, too.

Cheers!
