Subject: Problem on starting Shorewall
Posted by satimis on Sat, 02 May 2009 05:03:54 GMT

Hi folks,

Ubuntu 8.04
Shorewall

Shorewall fails to start;

/etc/init.d/shorewall start
Starting "Shorewall firewall": not done (check /var/log/shorewall-init.log).

tail /var/log/shorewall-init.log
Perhaps ip6tables or your kernel needs to be upgraded.
ip6tables v1.3.8: can't initialize ip6tables table `filter': iptables who? (do you need to insmod?)
Perhaps ip6tables or your kernel needs to be upgraded.

iptables: No chain/target/match by that name
iptables: No chain/target/match by that name
Terminated

/# uname -r
2.6.24-23-openvz

OpenVZ kernel is running here. Please advise how to fix the problem. TIA
