Subject: which is process
Posted by vmicovic on Thu, 07 May 2009 13:11:34 GMT

Hi,

How can i see which proces is from which user?
on htop i see process of vps user, but is on root id...
How to change to see with vps id, not the root?
if u understand me?!

in attachment u will see all the root process, but they are from vps...
