Subject: Public and private IP vor VE
Posted by parism70 on Fri, 10 Jul 2009 12:47:38 GMT

I have 2 VEs having each a public IP. One is the web VE and the other one is mysql VE. Is there a way to have the 2 VEs communicate through private/local IPs and if yes how to setup this as I use proxmox and there is one IP field in wich i did put the public IP.
