Subject: wanted freebsd template Posted by sachin on Tue, 14 Jul 2009 01:07:09 GMT View Forum Message <> Reply to Message

Hello,

We want to install FreeBSD from HyperVM control panel. So we need good templates for FreeBSD. So can anyone tell us from where we can get templates for FreeBSD. We are willing to pay for it. But the Freebsd templates should be good.

waiting for the reply.
