Subject: *SOLVED* How to disable raw sockets Posted by eugeniopacheco on Sat, 10 Jun 2006 10:59:04 GMT View Forum Message <> Reply to Message

Hi,

Does anyone know how to block raw sockets inside a VPS? I'm asking this because I would like to avoid a ddos attack to come from a VPS of mine. Is it possible? Or is there any other way to do it besides disabling raw sockets?

Regards,

Eugenio Pacheco
