## Subject: Re: veth error
Posted by Vasily Tarasov on Sun, 11 Jun 2006 14:43:37 GMT

Hello, I also observe this a bit strange behaviour,
here is a workaround, that helped in my case:

Instead this step
Quote:
ifconfig veth101.0 up

I did
Quote:
ifconfig veth101.0 0.0.0.0

This is actually the same, but for some reasons, if we do the
second command veth0 appears in /proc/sys/net/ipv4/conf/.

Good luck.
