Subject: Re: How to enable TUN/TAP device for VPS?
Posted by pzYsTorM on Sat, 29 Aug 2009 14:03:10 GMT

Some questions to that:
Is it possible to use TUN/TAP from different VEs at the same time?
Is it a safety problem, that each VE need access to the (same?) Device /dev/net/tun (c:10:200:rw)?
