Subject: Re: Access to /sys/class/dmi/id/* from VE
Posted by maratrus on Fri, 11 Sep 2009 13:19:01 GMT

Hi,

I'm afraid nobody will prepare a patch for this particular thing mostly because nobody will support a custom kernel.

I think that you show a good way of solving your problem.

Do these parameters are only readable?
Don't you want to use bindmounts from the HN into the VE.
