Subject: Re: Best method of backing up manually? firewall/security question as well. Posted by vivithemage on Mon, 21 Sep 2009 15:12:48 GMT View Forum Message <> Reply to Message

I just need something to backup once a week in case of catostrophic HDD failures or something. I have a remote server i'd like to download to via FTP, or RSYNC if I need to set that up.

I'd just like your guys' advice!
