Hello.

I have a server network card is r8168 but in CentOS 5.3 distro, only have r8169 driver. So that connect to my server is very slow, download only 100KB/s, ping is 1000mms.

I compiled but is have this error:

Quote:

```
[root@dedi ~]# tar xjf r8168-8.013.00.tar.bz2
[root@dedi ~]# cd r8168-8.013.00
[root@dedi r8168-8.013.00]# make clean modules
make -C src/ clean
