Subject: Traffic shaping not working
Posted by whatever on Wed, 11 Nov 2009 04:44:43 GMT

Traffic shaping is not working for VPS's. We are using this kernel
2.6.18-128.1.1.el5.028stab062.3 #1 SMP Sun May 10 18:54:51 MSD 2009 x86_64 x86_64
x86_64 GNU/Linux
Limit is set to 1024kbps but vps is able to burst 100mbps.

Any idea how to fix it?

Thanks
