Hi,

have you installed the linux kernel headers as well:

`/lib/modules/2.6.18-128.2.1.el5.028stab064.4/build` is a symbolic link to
`/usr/src/kernels/2.6.18-128.2.1.el5.028stab064.4/`

so please install the `ovzkernel-devel` package, see
<http://download.openvz.org/kernel/branches/rhel5-2.6.18/028stab064.4/>

Bye,
Thorsten
