[http:// phsuxx.blogspot.com/2009/12/route-hash-chain-too-long-adjust-your.html](http://phpsuxx.blogspot.com/2009/12/route-hash-chain-too-long-adjust-your.html)

As a workaround downgrade to RHEL 5.3 based kernel or decrease your
/proc/sys/net/ipv4/route/secret_interval value (default 600), but not too much.

But I hope that a permanent fix is on it's way.
