Termina wrote on Wed, 24 February 2010 16:43This is unfortunate.

I've really enjoyed OpenVZ under Lenny, sad to hear I won't be able to use this on 10.04 LTS or Squeeze. :/

Why is OpenVZ not in the linux kernel? Why does OpenVZ not support newer kernels?

I've tried LXC and did not care for it (Buggy, lack of documentation, etc.)

Ah well, there's always OpenSolaris or old, old versions of Linux for those of us that require containers. xD
