Subject: Re: 2GB Memory Limit per process (32bit)? Posted by jacobwm on Fri, 23 Jun 2006 14:02:47 GMT View Forum Message <> Reply to Message

It definitely hits the privvmpages limit, but I've set it to 3500M:3500M and it still won't start with just 2000M on the guest process.

It also will not run on the host node, so I'm guessing there's something limiting it in the kernel.
