ip_contrack_ftp is an alias for nf_contrack_ftp, see:

```
$ modinfo nf_contrack_ftp
filename:    /lib/modules/2.6.26-2-openvz-amd64/kernel/net/netfilter/nf_contrack_ftp.ko
alias:      ip_contrack_ftp <----!!!
(...)
```

Are the container(s) restarted after changing the vz.conf ?

Bye,
Thorsten
