---

I Didn't install The OpenVZ Before

So i want the Best way to install it

i tried with

[http://wiki.openvz.org/Install\\_OpenVZ\\_on\\_a\\_x86\\_64\\_system\\_Centos-Fedora](http://wiki.openvz.org/Install_OpenVZ_on_a_x86_64_system_Centos-Fedora)

to install quick install and faild

i want to istall OpenVz and hyperVm On Centos 64

can you Help
