Hello wfisher,

unfortunately I can't find useful information in your attach file.

Could you please do following:

- 1) boot into 022stab044.1 kernel
- 2) send me /var/log/dmesg file
- 3) send me /var/log/messages.\* files
- 4) send me initrd images both for 022stab044.1 kernel and for 022stab045.1 kernel

It should give me all the possible information about your problem.

Thank you,  
Vasily Averin
