Subject: Re: X-Server inside Container?
Posted by bjdea1 on Wed, 21 Jul 2010 06:09:21 GMT

This seemed to work fine in VE's on our Hardware node. Everything is done from inside the VE:

KDE and VNC server inside OpenVZ Container
  http://www.serverhostingsecrets.com/tutorials/kde-vnc-openvz -container/

We installed it inside a Fedora VE, but the guide says to use Centos, so both must work ok.

But this eats up server resources, so I'm not sure you'll be wanting to have many VE's running this.
